

FME MODULES

USER GUIDE

INTENDED AUDIENCE

The content of this document is designed to facilitate the users - managers, supervisors, and others of the **Share And Follow** PrestaShop Module. A step by step instruction has been added to this document to help users to install the module on PrestaShop.

As a safe practice always backup your files and database before installing any module on PrestaShop. If you are looking for someone to install the module, we can do it for you as well. Just go to the following link and let support know the order id to expedite the installation process.

Once you have installed please see the User Guide to help you understand how to use the module to its full capacity. If you still have questions feel free to contact us on the support platform where you bought this module.

If you have any custom requirements feel free to touch base with us.

INSTALLATION INSTRUCTIONS

1. Log in to **PrestaShop** administration panel, go to **Modules** → Click Add new module
2. Select **shareandfollow.zip** which you downloaded and click upload this Module
3. Scroll down and find **Share And Follow** and click **Install**. You are done
4. **Clear Cache** in **Advance Parameters** → **Performance**
5. Once you have installed the module you need to create a **Site ID** from **Shareaholic**. Instructions for creating a Site ID are provided below

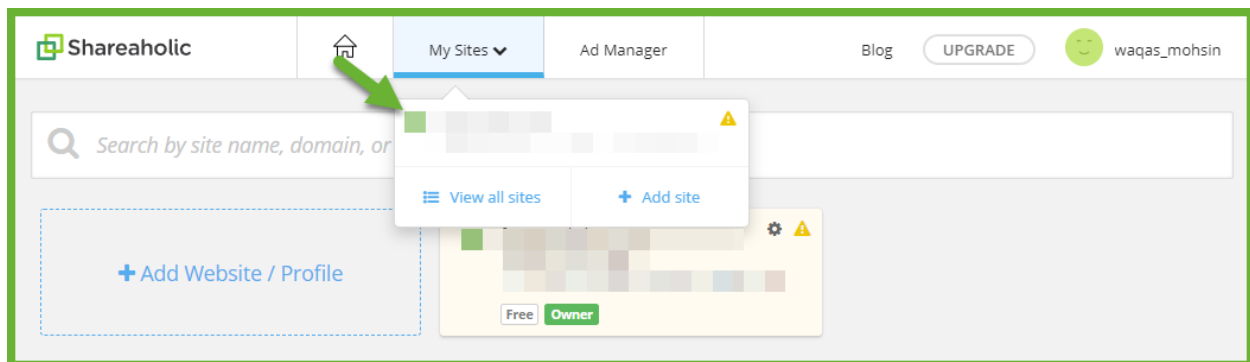

SITE ID CREATING INSTRUCTIONS

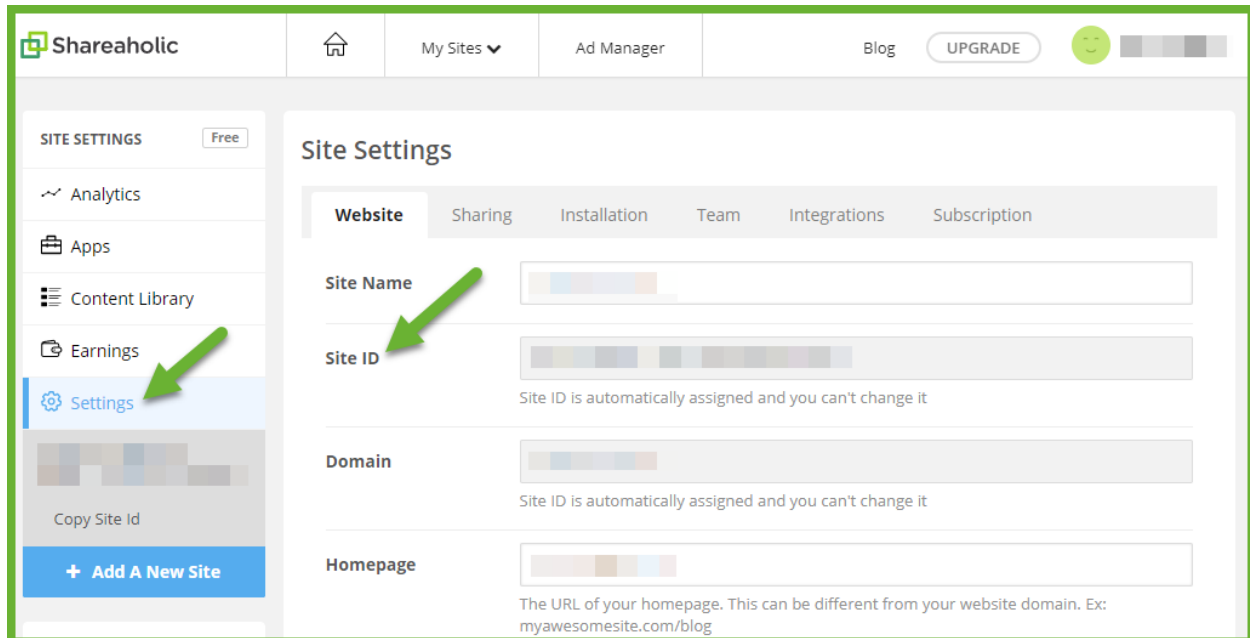

Go to [Shareaholic](#) and create an account. Once you create an account you can add your website by clicking on [Add Website / Profile](#) as shown below.

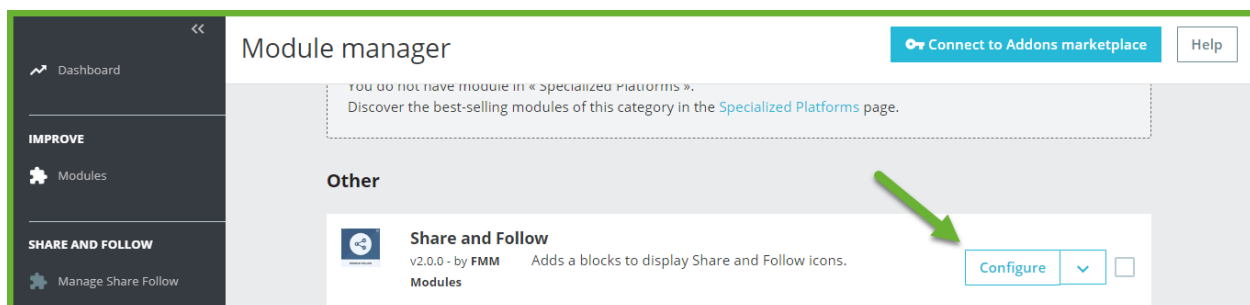

Once you have provided your website information here you can access the settings by clicking on the site from [My Sites](#) tab.

Here on the settings tab you can get your Site ID from the [Settings](#) tab as shown below.

Now you can copy then paste this site ID in the module configurations from **IMPROVE > Modules > Modules & Services**. Scroll down to find **Share And Follow**. Click on **Configure** to continue.

Here you can enable/disable the module and paste the Site ID in the fields highlighted below.

SHAREAHOLIC CONFIGURATION

- **Enable Hooks For Shareaholic:**
- **Site ID**

DISCLAIMER

It is highly recommended to backup your server files and database before installing this module.

No responsibility will be taken for any adverse effects occurring during installation.

It is recommended you install on a test server initially to carry out your own testing.

SUPPORT

If you need more information or have any questions or problems, please refer to our support helpdesk:

You can log a ticket and a support technician can assist you further.

CUSTOMIZATION

If you have requirements that are not covered by our module and you need to have our module customized, feel free to contact us through support helpdesk.
